SUMMARY

Third-year B.Tech Artificial Intelligence student at SVNIT Surat with a focus on Full-Stack development, AI/ML and scalable software solutions. Proficient in Python, Java (OOPs), and C++. Experienced in building end-to-end applications with modern JavaScript libraries and Python backends. Seeking an SDE internship to apply strong problem-solving and collaborative technical abilities.

EDUCATION

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat	08/2023 – 05/2027
B.Tech in Artificial Intelligence (Honors)	Current CGPA: <i>[8.11]</i>

TECHNICAL SKILLS

Languages: Python, C++, Java (OOPs), JavaScript.

Web Development: MERN Stack (MongoDB, Express, React.js, Node.js), Flask.

Databases: MySQL, MongoDB.

Tools & Platforms: Git, GitHub, VS Code, PyCharm, Eclipse.

Core CS Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs).

PROBLEM SOLVING

- **Data Structures & Algorithms:** Strong foundation in DSA. Able to solve problems with a clear understanding of the underlying intuition behind each solution.
- **Problems:** 300+ problems (Across platforms Leetcode, HackerRank) solved. [Godvampire07](#)
- **Application:** Experience in implementing optimized algorithms like Ant Colony Optimization (ACO) and Particle Swarm Optimization (PSO).

DEVELOPMENT PROJECTS

Full-Stack Reddit Analysis Platform *Python, Flask, React, MySQL*

- Built a full-stack application providing real-time NLP analysis on Reddit data.
- Developed a robust backend using Python/Flask to process data and a React-based frontend for real-time visualization.
- Integrated sentiment and sarcasm detection modules to enhance data-driven insights.

Construction Tender Management System *Python, MySQL, GUI*

- Developed a role-based GUI application to manage real-world tendering workflows for admins, contractors, and project managers.
- Implemented complex relational database schemas using MySQL for secure data management and persistence.

Multilingual Aspect-Based Sentiment Analysis *Python, Whisper, Fastext, SVM*

- Engineered an AI pipeline to automate aspect and sentiment detection in multilingual reviews.
- Handled end-to-end data processing for Hindi, Marathi, and Telugu languages.

WhatsApp Chat Analyzer *Python, PyCharm, Data Analytics*

- Developed a chat analysis tool providing user activity visualization and conversation insights.
- Leveraged Python libraries for data processing and ongoing implementation of sarcasm detection features.
